

PowerTerm[®] WebConnect for Parallels[®] Virtuozzo

Ericom's Desktop Virtualization (VDI) and Presentation Virtualization (SBC) solution, PowerTerm WebConnect, provides secure and centrally managed access to Parallels Virtuozzo virtual desktops. Ericom's solution enables organizations to centrally manage and deploy Parallels Virtuozzo virtual desktops from within the datacenter and hosting facilities — reducing the cost and complexity of traditional desktop PC management. As a flexible solution, PowerTerm WebConnect, also provides the option to access and manage Windows Terminal Servers, Blade PCs and legacy host systems from within the same management platform.

PowerTerm WebConnect Benefits

- Efficiently manage large groups of servers and users with a single, centralized administration and control console
- Enhance server performance and scalability through centrally managing and balancing desktop pools
- Improve user experience with the ability to customize the desktop environment in accordance with user requirements
- Expedite migration from other hosting technologies to Parallels Virtuozzo

Delivering Desktop Virtualization from a wide variety of platforms.

Licensing

- Ericom offers both perpetual licensing for Virtuozzo on-premise implementations and subscription licensing for Virtuozzo based hosting environments.
- Offers options for applications hosting services along with desktop hosting

POWERTERM WEBCONNECT PRODUCT SPECIFICATIONS

Windows Terminal Server Platforms Supported	<ul style="list-style-type: none"> Windows Server 2003/2008/2008 R2 Terminal Services 	<ul style="list-style-type: none"> Windows Server 2003 x64/2008 x64 Terminal Services 	<ul style="list-style-type: none"> Supports 64-bit Server with Parallels Virtuozzo
Protocols Supported	<ul style="list-style-type: none"> RDP with Ericom extensions 	<ul style="list-style-type: none"> PC-over-IP 	
Connection Broker Functionality	<ul style="list-style-type: none"> Broker acts as connection proxy 	<ul style="list-style-type: none"> Broker database caching for high availability 	
Management Features	<ul style="list-style-type: none"> Desktop Pooling for higher security and role-based container management 	<ul style="list-style-type: none"> Power Management provides the ability to shut down and power on containers — optimizes use of hardware resources 	<ul style="list-style-type: none"> Support for dynamic replication of Virtuozzo containers to meet expanding demands
Manage Permissions for Accessing Client-side Resources	<ul style="list-style-type: none"> Drives Printers 	<ul style="list-style-type: none"> Handhelds/PDAs Serial Ports 	<ul style="list-style-type: none"> Smartcards Audio
Additional Management Enhancements	<ul style="list-style-type: none"> Shadow virtual desktops sessions Remote access to users' local desktops for technical remote support 	<ul style="list-style-type: none"> Automatically download and install client via web browser (Internet Explorer and Firefox) Native client for Desktops and Thin Clients 	<ul style="list-style-type: none"> Configure client settings using parameters in the HTML (end-users do not need to provide any configuration settings) Built-in client deployments and automatic update functionality
Client Enhancements	<ul style="list-style-type: none"> Display Virtuozzo-hosted applications as Seamless Applications to eliminate the need for remote desktop 	<ul style="list-style-type: none"> Reverse Seamless to offload resource-heavy applications from network and Parallels Virtuozzo servers Achieve native application/graphics/media/VoIP experience 	<ul style="list-style-type: none"> Intuitive Web Interface & Desktop Launcher Customizable web browser based interface Virtual Desktop Reconnect
Security	<ul style="list-style-type: none"> Integrated with third-party SSL VPN devices Single Sign On Kerberos Authentication (credentials pass-through, Smartcard support) 	<ul style="list-style-type: none"> Two-factor authentication (Integration with RSA SecurID, any RADIUS compliant solution) Access Control Lists (Containers of user accounts, OUs and groups) 	<ul style="list-style-type: none"> Remote Password Reset (allows users to reset expired passwords prior to login)
Client Device Support	Windows 32-bit (9x/Me/2000/XP/XPe), Windows Vista, Windows CE, Linux client, Novell SLED 10 client, Locked-Down Kiosk Environments		

POWERTERM® WEBCONNECT VIRTUALIZATION PRODUCTS

PowerTerm WebConnect provides secure, centrally managed, on-demand access to enterprise-wide applications, desktops and data — from Windows and Linux desktops, and thin clients.

- PowerTerm WebConnect Enterprise**
 Provides secure, centrally managed access to applications and desktops (Windows or Linux), running on any combination of Windows Terminal Servers, Virtual Desktops, Blade PCs and legacy hosts
- PowerTerm WebConnect RemoteView**
 Provides secure, centrally managed access to applications and desktops (Windows or Linux), running on any combination of Windows Terminal Servers, Virtual Desktops and Blade PCs
- PowerTerm WebConnect DeskView**
 Provides secure, on-demand access to desktops, hosted on leading desktop virtualization platforms (VMware, Microsoft, Xen, etc.), and on Windows Terminal Server and Blade PCs

ERICOM – ACCESS DONE RIGHT

Ericom® Software is a leading global provider of Application Access and Virtualization Solutions. Since 1993, Ericom has been helping users access business-critical applications running on a broad range of Microsoft® Windows® Terminal Servers, Virtual Desktops, Blade PCs, legacy hosts, and other systems. Ericom provides concrete business value by helping organizations realize the benefits of their IT investments. With offices in the United States, United Kingdom, EMEA, India and China, Ericom also has an extensive network of distributors and partners throughout North America, Europe, and Asia. Our expanding customer base is more than 30 thousand strong, with over 7 million installations.
